

The Company

Eyoto is a technology company developing innovative solutions for the medical and ophthalmic industries world-wide. Our team consists of some of the leading engineers in the ophthalmic industry and has a track record of developing rapid solutions for commercial and research partners. The current team comprises a mix of R&D, engineering, sales, finance and management. We are a focused, dynamic, and highly motivated team that is making significant improvements to eye care technology throughout the UK, US, and beyond.

Our Internship Projects

We offer a diverse range of projects for graduates tailored to market demands, including enhancements to existing products and the exploration of innovative solutions. Past internship projects have involved creating optical design briefs based on distinct user requirements and investigating AI systems for ophthalmic diagnoses.

As an intern, you will integrate into our collaborative R&D team, participating in our sprint cycles and utilising project management tools and processes. This experience will also provide you with the chance to work with various cross-functional teams within our organization, including operations, software and hardware engineering, and fellow R&D members. Our goal is to provide interns with valuable insights into broader business considerations integral to R&D projects in industry, such as safety and regulatory requirements and intellectual property.

Skills and Experience

We match projects to our interns, based on their background and skillset, which may be in one or more of the following areas: optics, mechanics, electronics, computer vision, machine learning, algorithm development, robotics. In addition, our interns will demonstrate:

- Excellent analytical and problem-solving skills.
- Ability to work in isolation and as part of a wider team feeding into a bigger picture.
- Excellent written and verbal communication skills.
- Ability to work to deadlines.
- Professional use of Microsoft packages – including Word, Excel, PowerPoint.

How to Apply

Applications should be made by email to Fiona Loftus, Senior R&D Engineer, at fiona.loftus@eyoto.com. Please include a copy of your CV and a brief cover letter, highlighting experiences and skills that make you suitable for an internship with us.
